(54) Title: METHOD, ADDRESS TABLE AND SERVER FOR CREATING A LINK IN A WEB PAGE

(57) Abstract

A method of creating a link in a web page viewed in a browser is disclosed, said link at any time leading to one of a number of possible end points (5a-5e; 105, 106), the method comprising the steps of: providing an address table (9; 109) in or in connection to the host (7; 107) from which the web page is retrieved, said address table providing the addresses of the possible end points (5a-5e; 105, 106) at which the link may point, and when a user clicks on the link, selecting one of the possible end points (5a-5e; 105, 106) from the table (9; 109) and setting up a connection to said end point (5a-5e; 105, 106). An address table (9; 109) and a web server (7; 107) for use with the invention are also disclosed.

PCT/SE 98/01872

A. CLASSIFICATION OF SUBJECT MATTER

IPC6: G06F 17/30

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC6: G06F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

SE,DK,FI,NO classes as above

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier document but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"I" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance: the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance: the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
